Re: Offshore Power Systems, Docket No. STN 50-437

Mr. Chairman and Members of the Board:

In view of the Applicant's letter advice to the Board on November 9, 1978 and the Board Order of November 22, 1978, the Applicant and the Staff have continued discussion of differences regarding the Applicant's Motion to Plead a Matter in Controversy, et al.

Agreement in principle has been reached in a number of areas constituting the bases of the Applicant's original filing. While the agreement is substantial, it is not complete and there will be a few areas remaining for Board resolution. Both the Applicant and the Staff believe it would be helpful to the Board to receive revised language documenting the areas of agreement which the Applicant plans to file the week of December 11, 1978, after receipt of comments from the Staff. As a consequence, the Applicant believes that the number of differences to be resolved by the Board will be considerably reduced and urges the Board to defer ruling until after receipt of the revised language.

The Board's indulgence in this matter is appreciated and the Applicant is authorized to state that the Regulatory Staff joins in submitting this letter report.

Respectfully,

  
T. M. Daugherty,  
Counsel for the Applicant  
Offshore Power Systems
