SUMMARY OF INFORMATION:

MS. Elswick called and stated that a Dr. Weinstein was going to try to be added to Greenbrier Valley Hospital's license. She believes that he has falsified the number of hours of training he received. I told her we couldn't do anything until he submitted them to the NRC. On June 17, 1985 we received a letter from the Hospital Administrator (attached) stating that Dr. Weinstein would be in the Region # office next week to submit his qualifications to be named on the license.
