Gentlemen:

This acknowledges your letter dated April 4, 1983, in response to the Notice of Violation and proposed Imposition of Civil Penalties that was enclosed with our letter dated February 2, 1983, concerning installation and inspection of equipment at your Braidwood Station. Your letter and subsequent discussions with site personnel indicates that new or additional information exists which was not made available to our inspectors during the followup on the information provided in your October 8, 1982 letter, even though we specifically requested you provide such information. We had specifically requested audit reports and erection and inspection procedures that existed prior to July 1980.

In the near future we will review this additional information as it may apply to your request to mitigate the proposed civil penalties.

You will be advised of our findings.

Sincerely,

C. E. Norelius, Director
Division of Project and
Resident Programs
