Gentlemen:

This refers to the inspection conducted by Mr. M. E. Murphy of this office during the period September 22-23, 1988, of activities authorized by NRC Construction Permit CPPR-123 for the University of Texas, and to the discussion of our findings with Dr. T. L. Bauer at the conclusion of the inspection.

Areas examined during the inspection included mechanical equipment, piping and electrical systems installation; construction progress and schedule update. Within these areas, the inspection consisted of selective examination of representative records, interviews with personnel, and observations by the NRC inspector. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,
