Dear Mr. Martin:

This is in response to the report on combined inspection numbers 50-54/86-04; 70-687/86-05. The unlabeled drums resulted from our efforts to compact and consolidate waste prior to shipment off site for disposal. We have revised our procedure so that each drum will be labeled at the time waste is first placed in a container. With this change in procedure we are now in full compliance with 10 CFR 20.203 (f).

Very truly yours,

C. J. Konnerth
Manager, Site Operations
