Dear Mr. Martin:

Transmittal of Fort Calhoun Station
Security Plan Revision

The purpose of this letter is to submit changes to the Fort Calhoun Station Site Security Plan in accordance to 10 CFR 50.54(p). Specifically, this letter serves two purposes. The first is to establish a new position within the Fort Calhoun security force. The second is to provide a response to Reference 3, which contained descriptions of portions of the Reference 2 Security Plan Revision 16, that were either unacceptable to the NRC or required clarification.

The new position to be added to the Fort Calhoun Security Force is that of the Nuclear Watch Officer. Enclosure 1 includes the site security plan change that establishes this position. Included in this Enclosure is an explanation and justification of the tasks to be performed by this officer.

Enclosure 2 contains OPPD's response to the comments provided by the NRC in Enclosure 1 of Reference 3. The enclosure contained comments regarding changes (to the site security plan) that were considered by the NRC to be unacceptable. In Enclosure 2, a response is provided to each comment.

Enclosure 3 contains OPPD's response to the comments provided by the NRC in Enclosure 2 of Reference 3. The enclosure contained comments regarding changes (to the site security plan) that required clarification. In Enclosure 3 a response is provided to each comment.
