Gentlemen:

Your Quality Assurance Program Approval for Radioactive Material Package  
No. 0509 expires on November 30, 1988.

If you are an NRC licensee and conduct activities under the General Licenses  
of Subpart C of 10 CFR Part 71 or an Agreement State licensee subject to the  
requirements of 10 CFR Part 71, as required by 10 CFR Part 150.20, a quality  
assurance (QA) program approved by the Commission as satisfying the provisions  
of Subpart H of 10 CFR Part 71 is required. You should request renewal of your  
quality assurance program at least 30 days prior to the expiration date. This  
will provide for continuation of your QA program to satisfy part of the provisions  
of Subpart C of 10 CFR Part 71 until a final determination has been taken on your  
application.

Unless an exemption is provided by 10 CFR Part 170.11, an application fee of  
\$150.00, as required by 10 CFR Part 170.31, should be included with your request  
for renewal. This notice of expiration should not be construed that such notice  
will be provided in the future. If you do not desire to renew your QA program,  
please let me know.

Sincerely,

/s/

Charles E. MacDonald, Chief  
Transportation Branch  
Division of Safeguards and  
Transportation, NMSS
