JOHN W. BECK  
MANAGER-LICENSING

April 23, 1985

Mr. Vince Noonan  
U. S. Nuclear Regulatory Commission  
Office of Nuclear Reactor Regulation  
Washington, D.C. 20555

SUBJECT: COMANCHE PEAK RESPONSE TEAM (CPRT) -  
PROGRAM PLAN (DRAFT SECTIONS) AND  
ISSUE SPECIFIC ACTION PLANS

REF: TRT Letter of September 18, 1984  
TRT Letter of November 29, 1984  
TRT Letter of January 8, 1985  
Safety Evaluation Report - Supplement 7  
Safety Evaluation Report - Supplement 8  
Safety Evaluation Report - Supplement 9

Dear Mr. Noonan:

Enclosed with this letter are draft sections of our revised CPRT Program Plan and our final copy of certain issue specific Action Plans. The Program Plan drafts cover historical perspective, CPRT charter, objectives, principles and organization. The Action Plans are for the electrical, testing and civil/structural disciplines.

We are in the final stages of preparation of the mechanical, QA/QC and design adequacy action plans. Prior to submitting the mechanical and QA/QC plans, we want to carefully review the yet to be issued SSER's for these disciplines. With regard to containment coatings we will include considerations of the coatings SSER findings regarding quality matters in the QA/QC action plan. Other matters (testing, surveillance, etc.) related to the coatings SSER will be followed up in the normal course of our licensing activities, rather than dealing with it as a CPRT matter.

We are prepared to meet with you and appropriate staff to discuss any questions you may have regarding the enclosures.

Very truly yours,

*John W. Beck*
