ATTN: Mr. John Glenn:

U.S. NRC
LIC. FEE MGMT. BRANCH

Dear Staff:

Enclosed please find two (2) copies of our application and a check for amendment of our Type B Broad Scope Materials License No: 37-17937-03, issued to NUS Corporation for the Radiological Laboratory in January 1983. The respects in which we desire this license to be amended are as follows:

- The License should be changed from NUS Corporation Radiological Laboratory to NUS Corporation, Laboratory Services Division.
- Item 12 of NRC Form 374 should be changed from the names listed, to Patrick T. Kelly and John David Yesso.
- Supplements 15, 16 and 17 should be deleted and replaced with those documents contained in the ammendment application.

The grounds for these changes are as follows:

- Laboratory Services Division is taking over operations previously under the Environmental Services Division.
- Personnel changes.
- Change in the scope of work performed under current license.

If you have any questions or require further information, please contact Mr. Patrick Kelly, Supervisor of Radiological Services in Pittsburgh at (412) 788-1080.

Very truly yours,

Albert R. Kupiec
Vice President and General Manager
Laboratory Services Division
