

SOUTH CAROLINA ELECTRIC & GAS COMPANY

POST OFFICE 764

COLUMBIA, SOUTH CAROLINA 29218

September 20, 1985

O. W. DIXON, JR.  
VICE PRESIDENT  
NUCLEAR OPERATIONS

Mr. Harold R. Denton  
Director, Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

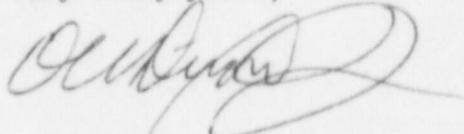

Subject: Virgil C. Summer Nuclear Station  
Docket No. 50/395  
Operating License No. NPF-12  
APPENDIX R REANALYSIS

Dear Mr. Denton:

On July 24 and 25, 1985, South Carolina Electric & Gas Company (SCE&G) met with the NRC Staff, both NRR and Region II, to discuss the recent Appendix R reanalysis effort and the Region II related concerns identified during the Fire Protection Audit of June 3 - 7, 1985 (Audit Report 50-395/85-26). As a result of this meeting, SCE&G agreed to provide additional information relative to protection for the structural steel of the "M" board located over the "A" train service water booster pump on elevation 412'-0" of the Intermediate Building. The attachment addresses this concern. As you requested, this information is being forwarded by separate correspondence to facilitate the review.

Any questions you may have concerning this information should be directed to Mr. Hal Donnelly or Dr. James Barker at (803) 345-2201, Ext. 4154.

Very truly yours,

O. W. Dixon, Jr.
