Dear Mr. Cooper:

As you may be aware, a Nuclear Regulatory Commission proceeding is scheduled to commence in early September on the subject of falsification of leak rate data at TMI-2. The NRC Staff witnesses in that proceeding would like to refer, in the course of their testimony in that proceeding, to photographs of various portions of the TMI-2 control room. Counsel to GPU Nuclear advised Staff counsel that you had taken a number of photographs of the TMI-2 control room in connection with an earlier lawsuit in which GPUN participated. Representatives of the Staff have reviewed copies of those photographs, and have determined that several of them would be of use in our upcoming proceeding.

I understand from your recent telephone discussion with Mary Wagner, NRC staff attorney, that you are agreeable to providing copies of those photographs to the NRC at a cost to us of \$18 per 8 x 10 copy. I also understand that the copying process should take about one week from your receipt of this request.

Specifically, we would like to have one eight by ten color copy of the following photographs which you took for GPUN:

1. GPUN #3024
2. GPUN #3025
3. GPUN #3023(2)
4. GPUN #3028
5. Closeup of GPUN #3028
6. Photograph with no number designation, but which has the number "8" in the upper left and right hand corners of the control panel.

Per your instructions, we have also enclosed a picture of each photograph to aid in your identification and cropping.

If you have any questions concerning this request, please contact Rick Weller of this office at (301) 492-8141.

Thank you for your cooperation in this matter.

Sincerely,

~~"ORIGINAL SIGNED BY~~
JOHN F. STOLZ"
