Re: License # 12-01491-05 Amendment Request

Dear Sirs:

This is a request to extend the time period of the "5-year inspection" requirement for our Cesium unit (item B sections 6, 7, 8 and 9) to permit us to have this done by January 23, 1987 rather than May 26, 1986 as is now required.

The reason we are requesting this delay is that the five year inspection period will be completed for our CO60 unit on January 23, 1987. It will be more convenient both now and in the future to have the five-year check and possible source replacements for both units at the same time.

We would appreciate your prompt attention to this matter and apologize for the short time available for your action in this matter.

We are enclosed a \$230.00 check to cover the amendment cost.

Yours truly,

*Luella Rill*  
Luella Rill
