Subject: Nycomed Amersham /AEAT Technology SSD Registrations in Massachusetts.

As you may be aware, Amersham Corporation/QSA, IL is relocating some of its operations to Burlington, Massachusetts. Effective November 1, 1998 Nycomed Amersham based in Arlington Heights, Illinois, terminated commercial distribution of some sources covered in the IL registrations which they have requested to be transferred to MA.

The Enclosure provides a copy of related communications and a list of Registration Certificates to be transferred from Illinois to Massachusetts. MA and IL is handling the issues.

I'm just providing these communications and the Enclosures for inclusions in the appropriate IMPEP files.

Thank you.
