RE: NRC License Number 34-13995-01

Dear Sir:

Please amend our license to include the following revisions:

1. Dr. Vincent Seiwert has resumed R.S.O. responsibilities. Shirley T. Small, M.S., has assumed the consulting radiological physicist responsibilities.

Her credentials have been previously approved on NRC License Number 34-02176-01 (Her name was formerly S. Toebes Williams).

2. The Bone Densitometry System is located in the Nuclear Medicine Department, not at the Medical Office Building location, 2450 Kipling Avenue, as previously submitted.
3. A third gamma camera has been ordered. The General Electric, Single Photon Emission Computer Tomography (S.P.E.C.T.) system will be installed in 1988.

The amendment fee is enclosed. If additional information is required, please contact Patricia O'Brien, Nuclear Medicine Department Supervisor, at 513-853-5172.

Thank you for your assistance.
