Subject: TERMINATION OF ACTIVITIES.

To: Nuclear Materials Licensing Section

To whom it may concern,

At this time Haynes International is deciding whether or not to terminate their radiation source activities with respect to their Materials License number 13-25965-01, expiration date: February 28, 1999.

With a new CEO coming in this month, we need some time to make a decision. We expect the decision to be made within 60 days.

An Annual Fee invoice has been received by Haynes that we would like to postpone payment for 60 days, until a decision has been made to terminate the license.

Below is the list of the items on our license that have been stored in their respective storage areas since dates indicated.

License

Item

Date placed into storage

- A. (20) MCi Cd-109 Source Gauge. In use. Will be discontinued.
