Gentlemen:

SUBJECT: NOTICE OF VIOLATION  
(NRC INSPECTION REPORT NO. 45-19806-01)

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by Mr. R. Brown on February 27, 1987, at Roofing Systems Associates, Inc. At the conclusion of the inspection, the findings were discussed with you and your staff.

The inspection was an examination of activities conducted under your license with respect to radiation safety and compliance with NRC regulations and the conditions of your license. It included selective examinations of procedures and representative records, interviews with personnel, and direct observations by the inspector.

The inspection findings indicate that certain activities appeared to violate NRC requirements. The violations, references to pertinent requirements, and elements to be included in your response are described in the enclosed Notice of Violation.

Furthermore, as discussed in Mr. E. Wright's telephone conversation with you on March 18, 1987, these violations are of concern to the NRC, and we strongly urge that you take prompt corrective action. From your statements to Mr. Wright, we understand that you have already instituted action to correct each of the violations discussed.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

The responses directed by this letter and its enclosure are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
