Dear Mr. Griffie:

This is to confirm our telephone conversation on June 16, 1986 in which we discussed the information we need to continue review of your application for renewal of License No. 24-06015-03E dated October 8, 1984. The information below is needed to continue review of your request:

1. It is not clear whether all electron tubes currently in your possession were labeled and provided to you by Cetron pursuant to their distribution license. If so, you could terminate both of your licenses, since secondary distribution need not be licensed. Please provide clarification.
2. Please provide the current company name of the Kansas City Works facility.

In order to continue prompt review of our application, we request that you submit your response to this letter within 30 calendar days from the date of this letter. If you have any questions, please contact me at (301) 427-4052.

Sincerely,
