Gentlemen:

We have reviewed your letter received January 27, 1986 requesting an amendment to your NRC License Number 24-02704-01 and find that we will need additional information as follows:

1. Please specify a maximum possession limit (in millicuries or curies) for Group VI sources.
2. Please submit Supplements A and B for Dr. Ben Medley. Note that we did not receive this information with your original amendment request.
3. Please confirm whether or not you wish to have Drs. Throne and Cowan authorized to use Groups IV and V, in addition to Group VI, on your license.

If you have any questions or require clarification on any of the information stated above, you may contact us at (312) 790-5625.

We will continue our review of your application upon receipt of this information. Please reply in duplicate, within 30 days, and refer to Control Number 80576.

Sincerely,
