1717 H Street, N.W.
Washington, D. C., 20555

Dear Mr. Zech:

As promised in my letter of April 1, 1987, enclosed please find 300 letters signed by Long Islanders and other residents of New York State.

In the event that all the letters do not come into your hands, attached is a copy of the aforementioned. I have signed this one myself.

The others will follow very shortly.

Sincerely,

Betty Iovino, RN.

The Nuclear Regulatory Commission
1717 H Street
Washington, D. C.,

Dear Commissioners:

The Governors, Senators and Congressmen representing more than 35 million people testified before the NRC on February 24, 1987 on the proposed rule change to license nuclear power plants where state and local governments refuse to cooperate in evacuation planning.

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, should be held criminally liable for injuries and deaths sustained as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely,

Mr. & Mrs. Ronald Iovino

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Dear Commissioners:

The Governors, Senators and Congressmen representing more than 35 million people testified before the NRC on February 24, 1987 on the proposed rule change to license nuclear power plants where state and local governments refuse to cooperate in evacuation planning.

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. The Governors, Senators and Congressmen representing more than 35 million people testified before the NRC on February 24, 1987 on the proposed rule change to license nuclear power plants where state and local governments refuse to cooperate in evacuation planning.

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,

10, Horizon Drive

Dear Commissioners:

The Governors, Senators and Congressmen representing more than 35 million people testified before the NRC on February 24, 1987 on the proposed rule change to license nuclear power plants where state and local governments refuse to cooperate in evacuation planning.

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,

Jayne Keeley

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,

Dear Commissioners:

The Governors, Senators and Congressmen representing more than 35 million people testified before the NRC on February 24, 1987 on the proposed rule change to license nuclear power plants where state and local governments refuse to cooperate in evacuation planning.

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,

JOHN AMIRANTE

1717 H Street, N.W.
Washington, D. C.

Dear Commissioners:

The Governors, Senators and Congressmen representing more than 35 million people testified before the NRC on February 24, 1987 on the proposed rule change to license nuclear power plants where state and local governments refuse to cooperate in evacuation planning.

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,

Ruth Bernhard - Ruth Bershade

The Governors, Senators and Congressmen representing more than 35 million people testified before the NRC on February 24, 1987 on the proposed rule change to license nuclear power plants where state and local governments refuse to cooperate in evacuation planning.

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,

(ESSNEIN)

The Governors, Senators and Congressmen representing more than 35 million people testified before the NRC on February 24, 1987 on the proposed rule change to license nuclear power plants where state and local governments refuse to cooperate in evacuation planning.

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,

Dear Commissioners:

The Governors, Senators and Congressmen representing more than 35 million people testified before the NRC on February 24, 1987 on the proposed rule change to license nuclear power plants where state and local governments refuse to cooperate in evacuation planning.

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,

The Governors, Senators and Congressmen representing more than 35 million people testified before the NRC on February 24, 1987 on the proposed rule change to license nuclear power plants where state and local governments refuse to cooperate in evacuation planning.

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,

Dear Commissioners:

The Governors, Senators and Congressmen representing more than 35 million people testified before the NRC on February 24, 1987 on the proposed rule change to license nuclear power plants where state and local governments refuse to cooperate in evacuation planning.

More than 75% of the people of Long Island have spoken out against Shoreham as determined by the last two polls conducted by Newsday.

You Sirs, and your staff members, will be held criminally liable for injuries and deaths sustanined as a result of your decision to usurp the functions of state and local government to protect the health and safety of citizens under the 10th Amendment of the Constitution.

In this 60 day period of public comment, we the people of Long Island wish it recorded, that we earnestly protest the licensing of Shoreham on the grounds that feasibility studies done by impartial evaluators have shown that there is no safe way to evacuate the citizens of Long Island in the event of a nuclear accident. We, therefore, also vehemently protest the actions of the NRC to put the self-serving interests of Lilco before our health and safety.

Sincerely yours,
