RE: License No. ~~04~~-00689-07

SUBJ: Demolition of Old Research Buildings

1. Present plans call for our moving all licensed research activities from the old research buildings into the New Research Building in late April and demolition of the old buildings in June.

2. Please send us written guidelines setting forth what is expected of us from the standpoint of NRC in vacating and demolishing the old research structures and preparing the site for new non-controlled buildings.
