SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)

DOCKET NOS. 50-445 AND 50-446

TRACEABILITY OF 1E PIGTAIL EXTENSIONS

SDAR: CP-86-38 (INTERIM REPORT)

Dear Mr. Johnson:

On May 27, 1986, we verbally notified your Mr. T. F. Westerman of a deficiency involving the failure of project procedures to adequately address the installation and inspection criteria for cable runs used as device pigtail extensions. This is an interim report of a potentially reportable item under the provision of 10CFR50.55(e).

CPSES Engineering is currently conducting an analysis of this issue to evaluate the impact of the lack of traceability of pigtail extensions by cable number. We are continuing our evaluation and anticipate submitting our next report by July 21, 1986.

Very truly yours,

W. G. Couns, il
