

DEC - 4 1998

Mr. Bruce Hirschler
Technical Assistant, SSRCR's
Office of Executive Director
Conference of Radiation Control Program Directors, Inc.
205 Capital Avenue
Frankfort, KY 40601

Dear Mr. Hirschler:

As requested in your E-mail of November 13, 1998, we have completed review of revisions to Part E - Radiation Safety Requirements for Industrial Radiographic Operations dated May 1998. The revisions involve changes to Sections E.19 and E.29.a.ii., made in response to our comments dated October 6, 1998 and which were approved by the Board of Directors at their October meeting. The proposed changes were reviewed by comparison to the equivalent sections of 10 CFR Part 34.

Based on our review, we find that Part E -- Radiation Safety Requirements for Industrial Radiographic Operations, as revised, meets the compatibility and health and safety categories established in OSP Internal Procedure B.7.

If you have any questions, please contact me at (301) 415-2326 or Jim Myers of my staff at (301) 415-2328 or JHM@NRC.GOV.

Sincerely,

Dear Mr. Hirschler:

As requested in your E-mail of November 13, 1998, we have completed the review of the final version Part E - Radiation Safety Requirements for Industrial Radiographic Operations dated May 1998 that was adopted by the Board of Directors of the Conference of Radiation Control Program Directors, Inc. (CRCPD) on June 12, 1998. The proposed regulation was reviewed by comparison to the equivalent regulation, 10 CFR Part 34 and the final version incorporates the suggestions NRC made on October 6, 1998.

As a result of this last review, we have now determined that the Part E -- Radiation Safety Requirements for Industrial Radiographic Operations, as written, meets the compatibility and health and safety categories established in OSP Internal Procedure B.7.

If you have any questions, please contact me at (301) 415-2326 or Jim Myers of my staff at (301) 415-2328 or JHM@NRC.GOV.

Sincerely,

Paul H. Lohaus, Deputy Director
