Mr. Carl Berlinger, Chief

Division of Pressurized Water Reactor Licensing - A
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

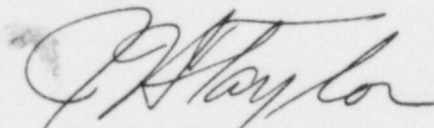

Reference: J. H. Taylor (B&W) to H. R. Denton (NRC), "Submittal of B&W Topical Report BAW-10159P," JHT/86-080, May 12, 1986.

Dear Mr. Berlinger:

The reference submittal forwarded 25 copies of the B&W Topical Report BAW-10159P, "BWCMV Correlation of Critical Heat Flux in Mixing Vane Grid Fuel Assemblies." In Appendix B of that report minus (-) signs were inadvertently deleted from some of the quality values in the tabular data. Consequently, 25 copies of the corrected Appendix B are enclosed.

The information in Appendix B is considered proprietary as sworn by me as Manager, B&W Licensing Services, in my affidavit presented with the May 12, 1986 submittal of the topical report and should be treated as such.

Very truly yours,

J. H. Taylor
Manager, Licensing Services
