Greeting,

DOCKET NUMBER

40-8027 MLA

I am enclosing petitions containing 436 signatures requesting that the NRC deny Kerr-McGee the license to process UF6 to UF4 at their Gore facility, Sequoyah Fuels.

Judge Frye is also being sent a copy and we intent to present more petitions at the public hearing, once that event occurs.

Until the public is assured that Kerr-McGee can, in fact, run a clean plant, we ask that they be prevent from expanding all operations.

We look forward to the public hearing on the Jan. 4th accident.

Sincerely,

Jessie Deer in Water
