Dear Mr. Spangenberg:

An NEA symposium on reducing scram frequency was held in Japan on April 14-18, 1986 and provided the perspective of both regulators and operators on scram reduction experience. Enclosed are the papers delivered at the conference. Please provide these papers to personnel within Illinois Power Company that you deem appropriate.

I have also taken the liberty to enclose a recent staff report on "Status of Maintenance in the U.S. Nuclear Power Industry" (NUREG 1212). This report presents the findings and conclusions of the initial phase of the staff's Maintenance and Surveillance Program.

Please contact the staff's project manager for your application, Byron Siegel if any additional information on these matters is needed.

Sincerely,

Original Signed By

Walter R. Butler, Director
BWR Project Directorate No. 4
Division of BWR Licensing
