

DOCKET NUMBER

PROPOSED RULE

PR 1, 2, 7 et al.
(64FR 24531)

1

If you eliminate the public document room & put it on the internet (which I believe is a wonderful idea since I use the internet) the rule or an appendix should include a list of public libraries in the US. Not everyone -- in fact not a majority -- has a PC capable of internet access. Additionally, a notice should be posted in major US newspapers to ensure publicity.
