Subject: NRC AUDIT REPORT OF THE EMERGENCY OPERATING PROCEDURES GENERATION PACKAGE (EOP-PGP) IMPLEMENTATION AUDIT FOR THE NORTH ANNA POWER STATION, UNITS NO. 1 AND NO. 2 (NA-1&2)

Enclosed you will find a copy of the subject audit as noted above. The subject audit was conducted in accordance with Generic Letter 82-33, Supplement 1 to NUREG-0737, "Requirements for Emergency Response Capability." This audit was conducted during the months of April and May 1986 with a site visit taking place on May 5-8, 1986. The audit was performed by NRC staff members and participating staff from Battelle Pacific Northwest Laboratories and the Human Affairs Research Center.

In a letter from W. L. Stewart to H. R. Denton, dated May 30, 1986, VEPCO documented actions that they intend to take in order to resolve the concerns identified by the NRC audit team and provided a schedule for completing the actions. The NRC staff will follow up on the actions committed to by VEPCO in its May 30, 1986 letter.

No response is required by VEPCO to receiving the subject audit report.

Sincerely,

LS

Leon B. Engle, Project Manager
Project Directorate #2
Division of PWR Licensing-A
Office of Nuclear Reactor Regulation
