SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)
DOCKET NO. 50-445
CABLE TRAY HANGER DESIGN
SDAR: CP-85-35 (INTERIM REPORT)

Dear Mr. Johnson:

On September 6, 1985, we verbally notified your Mr. C. Gould of a deficiency involving the design and construction activities of the cable tray hanger program. This is an interim report of a potentially reportable item under the provisions of 10CFR50.55(e). We have submitted interim reports logged TXX-4573 and TXX-4673, dated September 30, 1985, and January 22, 1986, respectively.

This issue is currently being evaluated under CPRT Program Plan Item VIII. Ebasco has consolidated all electrical raceway items, including cable tray hangers, under the scope of a single program which is scheduled to be completed in September, 1986. We are continuing our evaluation and anticipate submitting our next report by October 21, 1986.

Very truly yours,
