IN RESPONSE REFER
TO FOIA-85-59

Dear Ms. Garde:

This is in further response to your letter dated January 21, 1985, in which you requested, pursuant to the Freedom of Information Act (FOIA), records related to the NRC Comanche Peak Task Force established in March 1984.

We are now placing a box of allegation tracking system records, which are described on the enclosed Appendix R, in the NRC Public Document Room (PDR) in file FOIA-85-59 under your name.

Portions of the records identified at numbers 224, 226 through 258, and 274 contain information that is being withheld from public disclosure pursuant to Exemption (5) of the FOIA (5 U.S.C. 552(b)(5)) and 10 CFR 9.5(a)(5) of the Commission's regulations. The withheld portions contain the advice, opinions, and recommendations of the staff concerning potential violations. The nonexempt portions of these records are being placed in PDR file FOIA-85-59 under your name.

Pursuant to CFR 9.9 of the Commission's regulations, it has been determined that the information withheld is exempt from production or disclosure and that its production or disclosure is contrary to the public interest. The persons responsible for this denial are the undersigned and Mr. Harold R. Denton, Director, Office of Nuclear Reactor Regulation.

This denial may be appealed to the Executive Director for Operations within 30 days from the receipt of this letter. Any such appeal must be in writing, addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and should clearly state on the envelope and in the letter that it is an "Appeal from an Initial FOIA Decision."

On March 19, 1984, the Government Accountability Project (GAP) submitted various allegations concerning Comanche Peak to the NRC. A copy of the GAP submittal and associated documentation developed by the Technical Review Team is enclosed. These issues were included in the technical issues and allegations scheduled for review by the Technical Review Team.

One of the GAP allegations (Item 18 of the GAP letter) concerns "Material false statements by plant management to the Atomic Safety and Licensing Board." As discussed between Mr. R. Wessman of the Technical Review Team and H. Brooks Griffin of your office on August 7, 1984, this allegation appears to be appropriate for evaluation by your office.

You are requested to assume ~~lead~~ responsibility for the evaluation of this allegation. Please contact R. Wessman of my staff if you have any questions.

MEMORANDUM TO: Richard K. Herr, Director
Office of Investigations Field Office, Region IV

FROM: H. Brooks Griffin, Investigator *HBG*
Office of Investigations Field Office, Region IV

SUBJECT: ALLEGATIONS FROM GOVERNMENT ACCOUNTABILITY PROJECT (GAP)

On August 10, 1984, the Region IV Office of Investigations Field Office received from the Comanche Peak Steam Electric Station (CPSES) TRT a GAP allegation related to a material false statement made by the CPSES plant management to the ASLB. This allegation was contained in a March 19, 1984 GAP letter to Mr. DeYoung with I&E.

On August 10, 1984, the reporting investigator telephoned Billie Garde at GAP headquarters. Ms. Garde said this allegation referred to Heyward Hutchinson's testimony before the CPSES ASLB. Mr. Hutchinson had been interviewed by this investigator on February 27, 1984, and a transcript of the interview was provided to the ASLB. The events surrounding this incident were reported under Report of Inquiry No. Q4-84-014.

The CPSES ASLB has already ruled on the C NA prenotification issue. No further investigation is anticipated.
