Limit to topic of interest

Ask:

Is this a new issue?

Have you provided this to NRC?

Did you do it?
Did you see it?

Seek: names, dates, locations, documents.

- o Be courteous and considerate
- o Be sure individual appreciates the importance of his concern(s) and the staff/technical effort expended to review and evaluate.
- o Be sure individual understands we will require corrective action and that we are dedicated to safety.

When presenting negative findings (i.e., when allegations are found to be of no merit), do not tell individuals that they are "wrong", ask if the TRT has possibly missed his points
