SUBJECT: FEEDBACK INTERVIEW OF WITNESS A-22

On Thursday, November 8, 1984, witness A-22 was interviewed by telephone by A. Vietti, R. Masterson, R. Hubbard, S. Hou, S. Phillips, W. Smith, J. Zudans and yourself of the Comanche Peak Technical Review Team (TRT) staff. This interview, was to provide feedback from the TRT's investigation into technical concerns raised by this witness during an interview with Office of Investigation (OI Report No. 84-006 dated March 7, 1984) and an interview conducted by R. Wessman and R. Hubbard of the TRT on August 4, 1984. This feedback interview was transcribed and a copy of the transcript is attached.

During the interview R. Masterson and R. Hubbard provided the results of the TRT investigation into mechanical/piping concerns AW-66 and AW-70, respectively. S. Phillips and W. Smith provided the results of the TRT investigation into miscellaneous concerns AM-15 and AM-14, respectively. A. Vietti covered a concern raised during the interview that related to an issue covered in SSER No. 6.

The witness provided supplemental information regarding allegation numbers AW-66 and AW-70 and was satisfied with the TRT's investigation into the remainder of the concerns.

A-22 testified before the ASLB on a couple occasions regarding the concerns.
