NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

MAR 13 1985

Docket No.: 50-445/446
MEMORANDUM FOR: Vincent S. Noonan, Director
Comanche Peak Project
FROM: Chet Poslusny, Program Coordinator
Comanche Peak Technical Review Team
SUBJECT: FEEDBACK REPORT TO ALLEGER A-23

On October 31, 1984, Alleger A-23 was interviewed by telephone by D. Jeng, R. Philleo, and R.C. Tang.

Mr. Philleo explained the TRT's disposition of issues AC-22 and AC-23. For the TRT's investigation, 23 packages of concrete placement records were randomly selected and examined for any irregularities or nonconformance reports (NCR). Fifteen NCRs were identified and adequately disposed of according to established procedures. The TRT's took a field inspection trip that showed no degradation of concrete. During the field inspection trip, the TRT interviewed two QC inspectors who confirmed that necessary procedures were followed in placing concrete during the period they were directly involved.

The allegor felt the TRT correctly interpreted his concerns and had correctly resolved them.
