

Docket Nos: 50-445/446

Note to: D. Hunicutt, RIV

Subject: Telephone call with J. Ellis, (2/1/85 1300 EST)

On Friday, February 1, 1985, J. Zudans returned a call from Ms. Ellis, in which Ms. Ellis discussed the following subjects:

1. Ms. Ellis asked if the TRT was aware that the reactor coolant pump motor which failed some months ago, failed a second time soon after the initial event.
2. Ms. Ellis indicated that she had heard that the utility was cutting spent fuel pool liners in Unit 2 for the purpose of looking at the concrete. She indicated that she could not substantiate this allegation but wondered whether, (if it is true), the TRT should review this and whether board notification was necessary.

It is requested that you look into these items and advise me as to the facts. Your response is requested by February 8, 1985.
