PART I. -- INFORMATION RELEASED

- ☐ No additional agency records subject to the request have been located.
- ☐ Requested records are available through another public distribution program. See Comments section.
- ☐ APPENDICES
Agency records subject to the request that are identified in the listed appendices are already available for public inspection and copying at the NRC Public Document Room.
- ☒ APPENDICES
B, C
Agency records subject to the request that are identified in the listed appendices are being made available for public inspection and copying at the NRC Public Document Room.
- ☐ Enclosed is information on how you may obtain access to and the charges for copying records located at the NRC Public Document Room, 2120 L Street, NW, Washington, DC.
- ☒ APPENDICES
B, C
Agency records subject to the request are enclosed.
- ☐ Records subject to the request that contain information originated by or of interest to another Federal agency have been referred to that agency (see comments section) for a disclosure determination and direct response to you.
- ☒ We are continuing to process your request.
- ☐ See Comments.

PART I.A -- FEES

AMOUNT *

\$

☐

You will be billed by NRC for the amount listed.

☐

None. Minimum fee threshold not met.

☐

You will receive a refund for the amount listed.

☐

Fees waived.

* See comments
for details**PART I.B -- INFORMATION NOT LOCATED OR WITHHELD FROM DISCLOSURE**

- ☐ No agency records subject to the request have been located.
- ☐ Certain information in the requested records is being withheld from disclosure pursuant to the exemptions described in and for the reasons stated in Part II.
- ☐ This determination may be appealed within 30 days by writing to the FOIA/PA Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Clearly state on the envelope and in the letter that it is a "FOIA/PA Appeal."

Revised Case	

Freedom of Information Act Officer
Office of the Chief Information Officer
US Nuclear Regulatory Commission
Washington, DC 20555

Re: Freedom of Information Act Request

Dear Freedom of Information Act Officer:

We represent the Board of Lake Township Trustees in Stark County, Ohio in association with the Industrial Excess Landfill Superfund Site located in Uniontown, Lake Township, Ohio (the "IEL Superfund Site"). To investigate potential sources and the nature of radioactive contamination at the IEL Superfund Site on behalf of the local government of Lake Township, we request the following information:

1. All information in the possession of the US Nuclear Regulatory Commission and its predecessor entities (NRC) related to License No. 34-00508-06 issued to Goodyear Tire and Rubber Company, 142 Goodyear Boulevard, Akron, Ohio 44316 or its related or affiliated entities. By way of example and not limitation, this request includes copies of the license application form and license and any amendments, supplements, renewals, changes and modifications to the application or permit; any and all correspondence, or other communications between the NRC and Goodyear Tire and Rubber Company, its predecessors, successors, related entities and affiliates; any and all inspection, investigation, notices of violation or other reports, internal or external memoranda, data, correspondence or other documents generated by the NRC in association with the nuclear and radioactive containing or contaminated materials, source materials, byproducts, articles containing source materials or byproducts, high and low level radioactive waste, mixed radioactive and hazardous waste, any other sources of radioactivity, materials contaminated by radioactivity or other materials and substances regulated by the NRC, now or in the past, or co-regulated by the NRC and the Environmental Protection Agency (collectively referred to as "Radioactive Material") possessed, used, stored, generated, transported, managed, purchased, sold, treated, disposed or otherwise handled by the licensee; any and all reports or other documents filed with the NRC by the licensee for Radioactive Material; any

- all information related to high and low level radioactive waste or mixed waste generated by the licensee; any and all information related to the use, storage, purchase, sale, generation, management, disposal or other activities related to Radioactive Material by the licensee; any and all reports or other documentation or the disposition of Radioactive Materials and sources by the licensee.
2. Any and all information in the possession of the NRC related to the nature, possession, use, storage, management, purchase, sale, transportation, generation or disposal or other activities related to Radioactive Materials at or by the Goodyear Advance Technology Center, Wingfoot Lake facility, its predecessors, successors and related entities and affiliates. This information includes but is not limited to the types of documents discussed in #1.
 3. Any and all information in the possession of the NRC related to the nature, possession, use, storage, management, purchase, sale, transportation generation or disposal or other handling of Radioactive Materials by Goodyear Aerospace Corporation, its predecessors, successors and related entities and affiliates. This information includes but is not limited to the types of documents discussed in #1.
 4. Any and all information in the possession of the NRC related to the nature, possession, use, storage, management, purchase, sale, transportation, generation, or disposal or other handling of Radioactive Materials by the Firestone Tire and Rubber Company, its predecessors, successors and related entities and affiliates. This information includes but is not limited to the types of documents discussed in #1.
 5. Any and all information in the possession of the NRC related to the nature, possession, use, storage, purchase, sale, management, transportation, generation or disposal or other handling of Radioactive Materials, by Bridgestone-Firestone Company, its predecessors, successors and related entities and affiliates. This information includes but is not limited to the types of documents discussed in #1.
 6. Any and all information in the possession of the NRC related to the nature, possession, use, storage, purchase, sale, management, transportation, generation or disposal or other handling of Radioactive Materials, by Firestone Tire and Rubber Company Akron Synthetic Plant, its predecessors, successors and related entities and affiliates. This information includes but is not limited to the types of documents discussed in #1.
 7. Any and all information in the possession of the NRC related to the nature, possession, use, storage, purchase, sale, management, transportation, generation

or disposal or other handling of Radioactive Materials, by Firestone Tire and Rubber Company Akron Plant, its predecessors, successors and related entities and affiliates. This information includes but is not limited to the types of documents discussed in #1.

8. Any and all information in the possession of the NRC related to the nature, possession, use, storage, purchase, sale, management, transportation, generation or disposal or other handling of Radioactive Materials by General Tire Company, its predecessors, successors and related entities and affiliates. This information includes but is not limited to the types of documents discussed in #1.
9. Any and all information in the possession of the NRC related to the nature, possession, use, storage, purchase, sale, management, transportation, generation or disposal or other handling of Radioactive Materials by B.F. Goodrich Company, its predecessors, successors and related entities and affiliates. This information includes but is not limited to the types of documents discussed in #1.
10. Any and all information in the possession of the NRC related to the nature, possession, use, storage, purchase, sale, generation, transportation or disposal or other handling of Radioactive Materials by Seiberling Company, its predecessors, successors and related entities and affiliates. This information includes but is not limited to the types of documents discussed in #1.
11. Any and all information in the possession of the NRC related to the nature, possession, use, storage, generation, treatment, purchase, sale, management, transportation, disposal or other handling of Radioactive Material by any manufacturing, defense or research and development facilities in Stark, Portage, Summit, Medina, Mahoning, Trumbull, Tuscarawas, Wayne, Holmes, Carroll, Columbiana Counties in Ohio from 1960 to 1980. This information includes but is not limited to the types of documents discussed in #1.
12. Any and all information in the possession of the NRC related to the nature, generation, transportation, treatment and disposal of high level and low level radioactive waste, mixed radioactive and hazardous waste and other Radioactive Materials by manufacturing, defense or research and development facilities in Stark, Portage, Summit, Medina, Mahoning, Trumbull, Tuscarawas, Wayne, Holmes, Carroll and Columbiana Counties in Ohio from 1960 to 1980.
13. Any and all information in the possession of the NRC related to the nature, storage, generation, management, transportation, treatment, disposal or other handling of high and low level radioactive waste, mixed radioactive and

hazardous waste and other Radioactive Materials by the Ravenna Arsenal and other military facilities operated by the United States in Stark, Portage, Summit, Medina, Mahoning, Trumbull, Tuscarawas, Wayne, Holmes, Carroll, Columbiana Counties in the State of Ohio from 1960 to 1980. This information includes but is not limited to the types of documents listed in #1.

14. Any and all information in the possession of the NRC related to the Industrial Excess Landfill located in Uniontown, Lake Township, Stark County, Ohio. By way of example and not limitation, the information requested includes any license application forms and license to receive, treat or dispose of Radioactive Materials and any amendments, supplements, renewals, changes and modification to the application or permit; any and all records, databases, reports, memoranda, notes and any other documentation of the transportation to or disposal of Radioactive Material at the Industrial Excess Landfill from 1955 to 1980; any and all information identifying the persons and entities that may have transported or disposed of Radioactive Materials at the Industrial Excess Landfill; any and all documents regarding the nature and quantity of Radioactive Materials disposed of or transported to the Industrial Excess Landfill; the identity of any and all persons with personal knowledge of the transportation to, receipt of or disposal of Radioactive Materials at the Industrial Excess Landfill.
15. Any and all guidance documents, handbooks or other documents of the NRC related to the transportation and disposal of Radioactive Material from 1955 to 1980.

Request for Waiver of Fees. Pursuant to 10 CFR §9.41 the Lake Township Board of Trustees requests a waiver of fees for searching for, reviewing and duplicating any agency records. This request for information is not made for commercial purposes, but rather, to gather facts necessary to ensure that the health and safety of the citizens of Lake Township is protected. The Board of Township Trustees has received reports of night dumping of wastes from rubber company trucks placarded with radioactivity signs at the Industrial Excess Landfill Superfund Site. Groundwater samples indicate that high levels of radioactivity exist at various points of the Superfund Site. The Board of Township Trustees seeks the requested information to investigate the reports of dumping, determine what people and entities may have had Radioactive Materials in their possession in the area served by the Industrial Excess Landfill and document the proper disposal of known Radioactive Materials. Further, without more detailed information regarding the type of Radioactive Material that was dumped, a proper investigation and remedy of the Industrial Excess Landfill may not be designed.

Freedom of Information Act Request

Our firm will review the information received from the NRC to identify the persons and entities that had Radioactive Materials in their possession and potentially disposed of Radioactive Material or mixed waste at the Site. The Township is currently seeking Technical Assistance under the EPA's TOSC program from the Hazardous Materials Research Center at Michigan State University. Technical information may be forwarded to the Center for review. Much public concern has been expressed over this issue for many years. To date, despite citizens' requests, the EPA has not investigated it. Once the Board of Township Trustees and their representatives complete their review of the data and communicated its findings to the EPA and the public, public access to the information will be provided; however, the cost to copy the information may be charged to defray the Township's administrative expenses.

The disclosure of the information in the NRC's records is not in the commercial interest of the Lake Township Board of Trustees. Further, the disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the regulation and control of Radioactive Material and radioactive waste by the NRC and identify potential sources and types of radioactive contamination that may have been disposed at the Industrial Excess Landfill Superfund Site. Such information will enable the EPA and the PRPs to design a proper investigation and remedy of the Site. Accordingly, pursuant to 10 CFR §9.41(c) and (d), the NRC should waive the fees for this information request.

If you have any questions or require any additional information to process this request, please feel free to contact me at the telephone number listed above.

Very truly yours,

Edda Sara Post
