Gentlemen:

Subject: Inspection No. 030-21269/86-01

This refers to your letter dated August 25, 1986, in response to our letter dated August 4, 1986.

Thank you for informing us of the corrective and preventive actions documented in your letter. These actions will be examined during a future inspection of your licensed program.

In your letter you have indicated that you have arranged with a local service to provide a leak test of your sealed source should you require this service. In an application dated May 20, 1985 you provided this office with the name of an NRC approved leak test service and leak test kit. We expect that this is the leak test service and leak test kit to which you refer in your letter dated August 25, 1986. If our understandings differ from yours please respond to this office in writing.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:
