Fax: 301-415-5359

Dear Mr. Lee,

On 25 February 1999, your office issued Registration Certificate NR-1056-D-101-S for our GammaMed 12it and GammaMed 12i Brachytherapy High Dose Rate Remote Afterloader. As we are now relocating our Ann Arbor, Michigan office to Massachusetts, we ask that this device registration be transferred to Massachusetts's jurisdiction. We have ceased operations in Ann Arbor, and our US Nuclear Regulatory Commission license issued to that facility has been terminated.

We have been in contact with Mr. Gus Savastano of the Massachusetts Radiation Control Program, who is handling our application with that agency.

Your prompt action on this request would be greatly appreciated. If we can be of further assistance, please contact me.

Sincerely,

A handwritten signature in dark ink, appearing to read 'John J. Munro III'.

John J. Munro III  
Chief Executive Officer
