SUBJECT: NRC STAFF MEETING ON COMANCHE PEAK

The attached is my proposed outlined agenda for the NRC management meeting schedule for June 12, 1985 to be held at Region IV offices in Arlington, Texas. Each key area/participant is asked to present a prepared paper on his assigned area focusing on the identification of all issues that need to be resolved in order to reach a licensing decision on Comanche Peak. Each presenter should be sure to identify all problems or potential problems including management issues and resource requirements. This meeting is scheduled to start at 12:30 p.m.

Subject: ASLB Deposition of Evert Mouser

During his deposition of January 3, 1984, Mr. Evert Mouser, a former QC inspector at Comanche Peak, described meetings between himself and TUGCO QA management that may have been an example of intimidation. Judge Bloch at p. 22788 expressed hope that, "the Staff working intimidation will consider what Mr. Mouser has said and his familiarity with these questions." This matter is being examined by the TRT staff, but is being brought to the attention of the Intimidation Panel as well. I have enclosed the pertinent transcript excerpt.

Docket Nos.: 50-445  
and 50-446

Mr. W. G. Council  
Executive Vice President  
Texas Utilities Generating Company  
Skyway Tower  
400 North Olive Street, L.B. 81  
Dallas, Texas 75201

Dear Mr. Council:

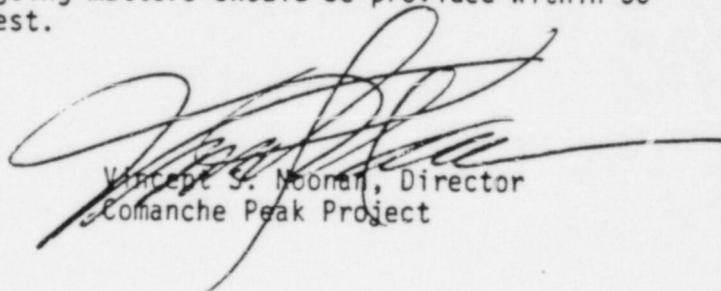

SUBJECT: REPORT OF COMANCHE PEAK INTIMIDATION PANEL

The enclosed report documents the results of the review and evaluation of allegations of intimidation and harassment at the Comanche Peak Steam Electric Station (CPSES). This review was performed by the Comanche Peak Intimidation Panel (Panel) and by a Study Team composed of a group of consultants.

The Study Team performed an in depth review and evaluation of alleged incidents of intimidation and harassment (Attachment 1 and 2 of report). The Study Team concluded and the Panel concurred that, while some instances of intimidation did occur, there was no pervasive climate of intimidation at CPSES.

As recommended by the Panel, you are requested to perform an assessment of the incidents described in this report, as well as the current condition at the site. You should also address your commitment to assure the establishment of a quality first attitude by your management and employees, as well as describe any evaluation, programs or other efforts underway or to be undertaken directed at this situation.

Your written response to the foregoing matters should be provided within 30 days of your receipt of this request.
