Director of Nuclear Material Safety and Safeguards  
United States Nuclear Regulatory Commission  
Washington D.C. 20555

**RE: Radioactive Material License 42-01485-06E**

Dear Sir or Madam:

In accordance with 10 CFR 32.20(b), (c) and (d) the following is a summary of the total quantity of exempt quantity sources we have distributed.

<u>Year</u>	<u>0.005 <math>\mu</math>Ci Cs-137 Leak Test Reference Sources</u>	<u>5 <math>\mu</math>Ci Cs-137 Check Sources</u>
1994	14	46
1995	11	93
1996	41	146
1997	37	124
1998	40	86
May 1999	9	32

It was noted that two check sources could not be located around June 19, 1997. Based on conversations with staff, it was concluded that the check sources may have been provided by TN staff to customers as replacement sources. However, no name or address could be located. Since that time the exempt source accountability has been assigned to one person and a log book is maintained current weekly.

Should you have any further questions or require additional information, please advise. I can be contacted by telephone: 512-388-9287, fax: 512-388-9333 or email: [rheyer@tn-technologies.com](mailto:rheyer@tn-technologies.com).

Sincerely,

Ralph S. Heyer  
Radiation Safety Officer  
and Manager Regulatory Affairs
