Our office works with the Nuclear Regulatory Commission in recording information from material transfer reports. Concerning your general license authorizing the distribution of devices to persons who hold a general license under 10 CFR 31.5, the following discrepancies with the material transfer reports for the following reporting periods were found:

	Reporting Quarter				
Year	First	Second	Third	Fourth	
<u>95</u>	<u> </u>	<u> X </u>	<u> </u>	<u> </u>	

 X The reports have not been provided to U.S. Nuclear Regulatory Commission. Please send the report to the attention of Cheryl Barnes, NMSS/SCDB, Mail Stop T:8F5, Washington, DC 20555.

 The report did not provide the name or address of the person receiving the device.

 The report did not provide the manufacturer name or model number of the devices transferred

 The report did not provide the quantity and type of byproduct material contained in the devices.

 The report did not state to where transfers were sent (i.e., for disposal, to another user, etc).

 The report is not in a legible format whereby the required information can be identified. Please resubmit the report.

 The report did not list the name and/or position of an individual who may serve as a point of contact between the NRC and the general licensee (*see attached*).

Sincerely,

Tim Borges
