Richmond, VA 23261

Gentlemen:

SUBJECT: ENVIRONMENTAL MONITORING PROGRAM COORDINATION WITH THE  
COMMONWEALTH OF VIRGINIA

This is to document discussions between Mr. D. Sommers and Mr. L. Thomason of your staff and Mr. A. Ignatonis of the NRC on November 10, 1986, regarding the Commonwealth of Virginia Environmental Monitoring program in the vicinity of VEPCO plants.

The Commonwealth of Virginia, as part of an NRC contract, performs environmental monitoring around the North Anna and Surry facilities. This program includes split sample collection, analysis, and an annual report to the NRC listing Commonwealth and licensee environmental results.

It is our understanding an agreement was reached during the telephone call on the following points.

1. VEPCO representatives agreed to provide environmental data to the Commonwealth of Virginia on a quarterly basis for inclusion in reports.
2. VEPCO representatives agreed to submit the fourth quarter data to the Commonwealth no later than the end of February.

The NRC encourages your participation in the Environmental Monitoring program and appreciates your cooperative efforts to make this program a success. The program provides independent verification of your results, promotes Commonwealth/licensee cooperation, and improves public information. The Commonwealth contact for program coordination is Ms. C. Schrider, Bureau of Radiological Health. If there are any questions or problems concerning this program, please contact Ms. Susan S. Adamovitz of the NRC RII staff at (404) 331-5591.

Sincerely,

8701080526 861222
