Gentlemen:

Subject: Systematic Assessment of Licensee Performance (SALP) Report
No. 50-309/87-99

The NRC SALP Board has assessed the performance of activities at the Maine Yankee Nuclear Power Station for the period February 1, 1987 to July 31, 1988. The results are documented in the enclosed SALP Board Report. A meeting at Maine Yankee to discuss this assessment will be scheduled by separate correspondence.

At the SALP meeting you should be prepared to discuss our assessment, in particular, the areas of radiation protection and security. Your discussion should specifically address your assessment of the root causes for the problems noted in these areas and your plans to effect permanent corrective action.

Your cooperation is appreciated.

Sincerely,
