October 5, 1988

United States Nuclear Regulatory
Commission - Region IV
611 Ryan Plaza Drive
Arlington, TX 76011

Attn: D. Blair Spitzberg

Docket: 30-29751
License: 25-26871-01

Dear Mr. Spitzberg:

In the Stillwater Mining Company Nuclear Regulatory Commission Byproduct Material License dated 2/4/87, we stated we would implement a personnel film badge program to determine exposure and continue the program for a 6-month period at which time it would be evaluated.

We have implemented the personnel film badge program and have administered the program for a two-year period.

Please find and review the results of the attached exposure records. We would like to eliminate the T.L.D. surveillance program. The exposures are below the 0.125 REM/quarter. No significant exposures have been noted during this two year period.

Sincerely,

A handwritten signature in cursive script, appearing to read "K. E. Schulz".

K. E. Schulz
Radiation Safety Officer
