RE: Application for Amendment to Materials
License #49-2106-01

49-21060-01

Dear Sirs:

We need some information on the procedures of applying for Amendment to Materials License #49-2106-01, which was last renewed in June of 1987. We will be making some changes in the firm so we need to know what has to be done.

4U2 Engineering and Land Surveying will be changing its name to "Eastern Wyoming Engineering and Surveying Professionals". The location of the firm will still be at 2510 West C Street, with mailing address of P.O. Box 99, Torrington, Wyoming. The phone number will also be the same (307-532-3811). Russell D. Schamel is no longer with the firm, although Robert W. Taylor is still Owner-Partner, and will be Radiation Officer.

We would also like to apply to move the location of the Gauge (See enclosed drawing for new proposed location). Everything else will remain the same except for the changes listed above.

If you could let us know what we need to do we would greatly appreciate it.

Sincerely,

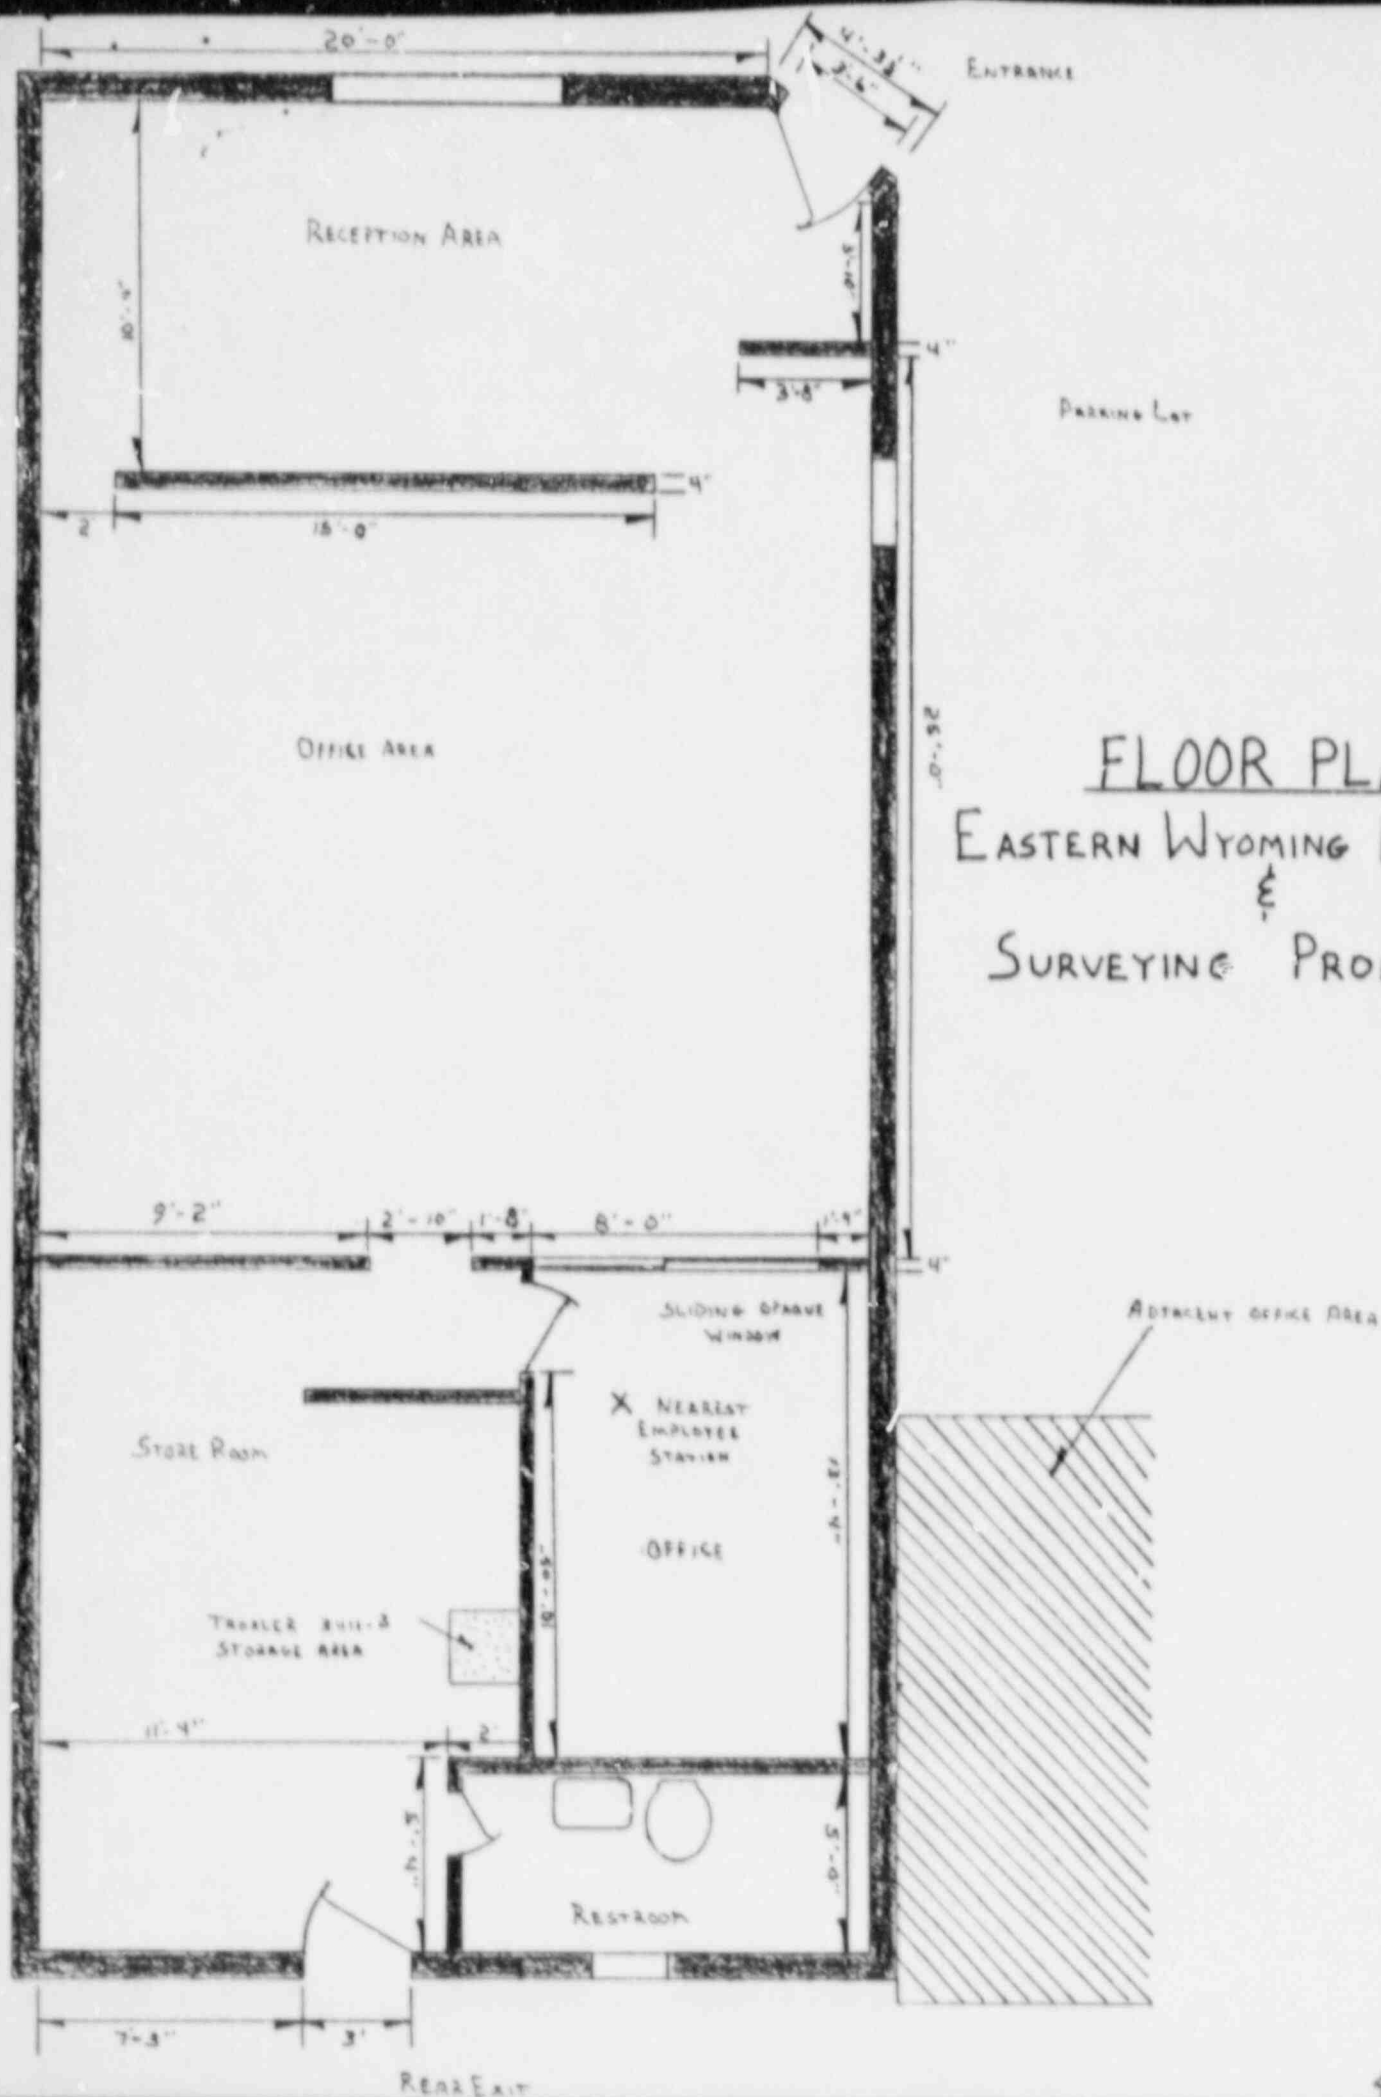

Robert W. Taylor, P.L.S.
