Materials Licensing Branch,
Division of Fuel Cycle & Material Safety,
Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C.

Application is enclosed for renewal or license to continue using
N1⁸³ Sealed source in laboratory testing with gas chromatography.
Upon returning instrument to manufacturer for service the former
License 20-04366-02 before the instrument could be returned. As the
testing of water samples with this instrument is critical to the
operations of this Division's Water Control Laboratory, it is
requested if possible, the number assigned be given to this office
over the phone as several tests are beginning and delay may be of
concern for future further action if required. Thank you.
