Attention: Mr. Edward F. Hawkins, Chief  
Licensing Branch 1

Gentlemen:

Enclosed is an updated version of Appendix C, "Construction Specifications" which was originally a part of the Response to Request for Information to the Texas Department of Health dated March 18, 1986 on the final reclamation plan for the Ray Point Tailings basin. The updated specifications are identical with the exception of the underlined sections. These revisions are intended to make the specifications consistent with the NRC Staff Technical Position. It is our understanding that NRC intends to require these changes as a condition of their endorsement of the reclamation plan.

As before, we are forwarding this document directly to you for your review, and request that you provide any comments to TDH.

If you have any questions pertaining to this matter, please call H. Paul Estey on either (512) 786-2586 or (713) 978-5438.

Sincerely,

JDP:st
