RE: City of Kalispell Byproduct Material License Application

Dear Joy:

In response to your July 17 request for additional information we offer the following:

1. Personal Monitoring Equipment

We have set up a program with Morrison-Knudsen Co., Inc., Safety and Environmental Services of Boise, Idaho, to supply us with thermoluminescent dosimeters (TLDs). The TLDs will be changed every three months.

2. Safety Procedures For Transporting Gauges or Devices

We will follow all Department of Transportation regulations applicable to the packaging, labeling and transportation of the device. See attached letter to the DOT asking for a copy of the applicable regulations.

3. Operating and Emergency Procedures

All personnel have been provided with a disc describing in detail the following items:

- A. Use of personnel monitoring.
- B. Use of the device.
- C. Storage of the device.
- D. Transportation of the device.
- E. Leak testing.
- F. Emergency procedures.

4. Disposal of Nuclear Gauge

Disposal will be by transfer of the nuclear gauge to a licensee specially authorized to possess it. In our case we would ship it back to our original supplier, a commercial firm licensed by the NRC or an Agreement State, or another specific licensee properly authorized.

If you need any further information feel free to contact us.

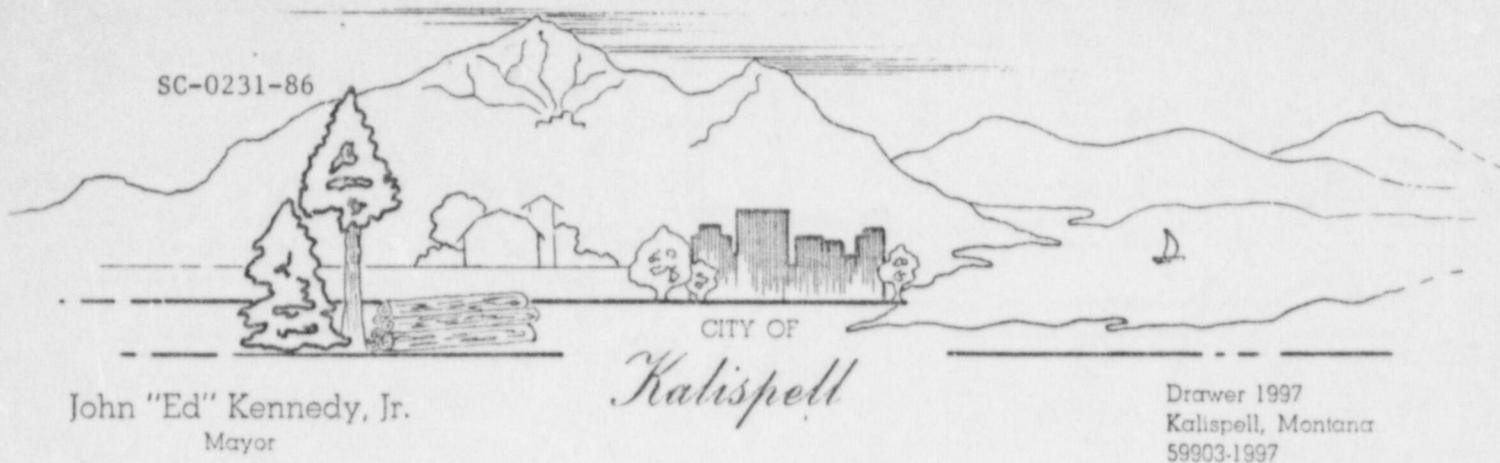

Very truly yours,

A handwritten signature in dark ink, appearing to read "AJH", is written over the typed name.

Washington, D.C. 20590

Dear Sirs:

The City of Kalispell is in the process of purchasing a nuclear densometer and will be required to comply with Nuclear Regulatory Commission licensing requirements. Please send us a copy of the DOT regulations on labeling and transporting radioactive materials.

Very truly yours,

Andrew J. Hyde
