ATTN: Mr. D. G. Wiedeman, Chief
Nuclear Materials Safety Section 1

Dear Mr. Wiedeman:

RE: NRC By-Product Material License
No. 21-16304-01 Violation

In response to your letter of February 25, 1987, the City of Muskegon Engineering Department regrets the inadvertent violation of Licensed Condition 12 of our License No. 21-16304-01. The individual mentioned in the violation did have a certificate of training from Troxler Laboratories, but was not mentioned on the license. We have taken the following steps of corrective action:

(1) Corrective action taken and the results achieved.

The nuclear moisture/density gauge shall not be used by individuals without supervision and physical presence of authorized individuals named on the license.

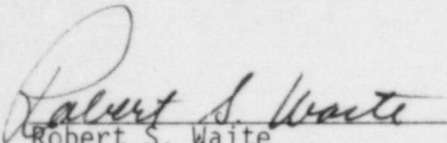

(2) Corrective action to be taken to avoid further violations.

License Condition 12 is to be amended to include all individuals who have completed training course. We have requested the Materials Licensing Section to amend License Condition 12.

(3) The date when full compliance will be achieved.

February 9, 1987.

Yours truly,

Robert S. Waite
Engineering Departmental
Supervisor
