Glen Ellyn, IL 60137

To Whom It May Concern:

Please find enclosed our check in the amount of \$120 for the following amendment to our NRC License (#21-01333-01). We request a change in the possession limit for I-125 seeds from 2.5 Ci to 6.0 Ci.

Because of a new brachytherapy program which was recently initiated in our Radiation Oncology Department, the demand for iodine sources has markedly increased. Your cooperation in expediting the increase in our possession limit to the requested level would be greatly appreciated. This would allow us to possess sufficient quantities of I-125 to support our increased patient load.

Thank you for your consideration.

Sincerely yours,

Catherine Warmelink
