Gentlemen:

Subject: NRC Inspection Report No. 50-318/87-07

An unannounced occupational radiation protection inspection at the Calvert Cliffs Unit 2 facility was conducted on March 23-27, 1987. The implementation of radiological controls during the outage was inspected.

The specific areas examined during the inspection are identified in the enclosed inspection report and included the following: external exposure and personal dosimetry, internal exposure control and assessment, control of radioactive materials and contamination, radiological surveys, monitoring, and ALARA.

Within the scope of this inspection, no violations were identified. No reply to this letter is required. Your cooperation with us is appreciated.

Sincerely,

Original Signed By:
