

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

October 28, 1998

NOTE TO: Paul Lohaus, Deputy Director
Office of State Programs

FROM: Seung J. Lee, Mechanical Engineer
Materials Safety Branch
Division of Industrial and
Medical Nuclear Safety, NMSS

SUBJECT: VENDOR WORKSHOP

Attached for your information is an example copy of a solicitation of interest letter that is being sent to all SSD vendors (manufacturers and distributors) concerning the Sealed Source and Device Vendor Workshop that will be conducted on January 13, 1999. Identical letters are being sent to all addressees on the attached listing of vendors. This listing includes both NRC and Agreement State licensees that expressed interest or attended in the previous workshop dated May 8, 1997.

If you have any questions concerning the letters or the vendor workshop, please contact me at (301) 415-5787 or Mr. Steven Baggett at (301) 415-7273.

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

Mr. Jeff Cholin
Advanced Detection Technologies Inc.
5 Old Town Park Road, Unit #28
New Milford, CT 06776

Dear Mr. Cholin:

This is to announce that the NRC will be conducting a sealed source and device vendor workshop on January 13, 1999. The workshop is intended for persons who are directly or indirectly involved in the preparation and submittal of applications to NRC (applicability to Agreement States as well) for safety evaluation of a sealed source or device containing a sealed source (SS&D). The purpose of the workshop is to identify problems that have been encountered and discuss process changes being implemented, and to provide information on the appropriate depth and breath of SSD applications to ensure expeditious review and approval. In addition, the workshop will provide applicants and potential applicants the opportunity to ask specific questions concerning the application and review process. Questions and comments from participants of the workshop may be used to revise current regulatory guidance for submitting applications as well as the current review process. Suggested topics include:

- What sealed sources and devices require a safety evaluation.
 - NUREG-1556, Volume 3
 - Agreement State Requirements.
 - Foreign Manufactured Devices and Sources.
 - Medical Devices and Sources (FDA).
- Preparation of the application.
 - Regulatory requirements.
 - Regulatory Guide 6.9
 - Proprietary information.
 - Applicant's responsibilities.
 - Pre-application contact (questions, meeting, etc.).
 - Check application for completeness and accuracy.
 - Submittal to correct address and offices.
 - Other NRC offices (Regional Offices, SFPO)
- The review process.
 - Initial Acceptance Review.
 - Applicable regulations.
 - Standard Review Plan for SS&D reviews [NUREG-1550].
- Deficiency letters and phone calls.
 - Typically missed areas.
 - Time allowed for responses.

- Issuance of registration certificates.
- Vendor responsibilities after certificate is issued.
 - Review certificate and check for completeness and accuracy (contents of a registration certificate).
 - Manufacture and distribution in accordance with the registration certificate.
 - Amendments.
 - Incidents.
 - Part 21 notifications.
 - Inactive certificates.
- Who uses the registration certificate?

This workshop is open to all interested individuals, will last one day (8:00 AM to 5:00 PM), and will be held in the NRC headquarters auditorium in Rockville, MD. Interested individuals should respond to the address listed below by December 13, 1998, and include the information listed:

US Nuclear Regulatory Commission
Office of Nuclear Material Safety and Safeguards
ATTN: Mr. Seung J. Lee (sjl@nrc.gov)
Mail Stop: T8-F5
Washington, DC 20555

- Names of all persons attending.
- Contact name and phone number.
- Company Name and Address.
- Involvement in the application process (vendor, consultant, etc.).

In addition, submittal of suggested topic areas or specific questions (that have general applicability to the application and review process) that persons would like answered during the workshop is encouraged to make the workshop more useful. Following the presentation of the above topics, there will be a question and answer session where these and other questions may be discussed, as time permits.

Questions concerning the workshop should be directed to me at (301) 415-5787 or Traci Kime at (301) 415-7231.

Sincerely,

Seung J. Lee, Mechanical Engineer
